

DESCRIPTION

The PFINDER UVLuxCHECK is a dual UV and white light meter, designed to offer the user the most accurate results. It is housed in an extremely robust and high quality case. The backlit LCD colour display ensures an easy reading of the measurements. PFINDER UVLuxCHECK provides a truly unique system design, because only the sensor head stores the calibration data. Therefore only the sensor head needs to be sent for calibration, offering a unique interchangeability. With a second sensor head (available optionally), operators don't need to be without a working meter during calibration times anymore. The standard operation allows more than 10 hrs. continuous use with one set of batteries.

PRODUCT BENEFITS

- Dual sensor head for white light and UV measurement
- Compact, ergonomically and extreme robust design
- Multi lingual menu navigation such as: German, English, Spanish, French
- Optional exchangeability of the sensor head

APPROVALS & CONFORMITIES

The product conforms to the following specifications / is suitable for use according to:

CE-Conform

**For use in accordance with
 EN ISO 3452-1
 EN ISO 9934-1
 EN 3059**

Please respect the relevant rules and specifications for your application

CONTENT OF DELIVERY

Dual UV and White Light Meter with sensor head, Case, User's manual

TECHNICAL DATA

Measuring Range:

White Light 5-10.00 lux
 UV-Light 0 – 10.000 $\mu\text{W}/\text{cm}^2$

Resolution:

White Light 0,1 lux (unter 10 lux)
 UV-Light 0 – 10.000 $\mu\text{W}/\text{cm}^2$

Dimensions in mm: 163 x 80 x 25
 With rubber boot: 168 x 85 x 30
 Power: 2 x 1,5 V AA
 Battery running time:
 (permanent use): > 10 hours

Body protection class: IP54
 Weight (incl. batteries): 350 g
 LCD Colour Display: 2,8" (70mm)
 320 x 240 Pixel
